SUMMARY

Passionate 3rd-year Computer Science student specializing in AI/ML, NLP, and backend systems. Experienced in building end-to-end Machine Learning pipelines using Python, PyTorch, Scikit-learn, and FastAPI. Proficient in database management with PostgreSQL and containerization using Docker.

EDUCATION

Bachelor of Science in Computer Science (AI & ML Specialization)

University of Technology ? Expected Graduation: May 2027

GPA: 3.85 / 4.0

TECHNICAL SKILLS

? Programming Languages: Python, C++, SQL, JavaScript, HTML/CSS

? Frameworks & Libraries: FastAPI, PyTorch, Scikit-learn, Pandas, NumPy, NLTK, Transformers, Node.js

? ML & Data Science: NLP, Sentence Transformers, Feature Engineering, Model Evaluation, Vector Search (FAISS)

? Databases & Cloud: PostgreSQL, SQLite, Docker, AWS (S3, EC2), Git, CI/CD pipelines

PROJECTS

AI Resume Matcher & Skill Gap Analyzer (Python, FastAPI, Scikit-learn, Docker)

? Built an end-to-end NLP matching platform using TF-IDF and Sentence Transformer embeddings.

? Extracted skill entities with regex and rule-based NLP parser.

? Developed REST APIs with FastAPI and designed an interactive Streamlit dashboard.

Predictive Customer Churn Engine (PyTorch, Pandas, PostgreSQL)

? Trained a deep learning binary classification model achieving 91.2% F1-score on 50k customer records.

? Conducted feature selection and optimized hyperparameters using Optuna.

EXPERIENCE

Machine Learning Intern ? DataScale Labs (June 2025 ? August 2025)

? Cleaned and preprocessed unstructured text datasets (100k+ records) using NLTK and pandas.

? Fine-tuned Hugging Face transformer models for sentiment classification.

? Dockerized backend endpoints for cloud deployment on AWS EC2.

CERTIFICATIONS

? Deep Learning Specialization ? Coursera / DeepLearning.AI

? AWS Certified Cloud Practitioner ? Amazon Web Services
